Abstract not available for JP2003503329T

Abstract of corresponding document: **WO0100147**

According to the present invention there is provided a cosmetic composition comprising: (a) at least one quaternary ammonium agent; (b) emollient; and (c) polar solvent; wherein the composition comprises vesicles, said vesicles comprising quaternary ammonium agent and emollient. The compositions of the present invention give good skin care benefits, such as good skin feel, good skin softness and/or good skin smoothness, with low levels of negatives such as greasiness, stickiness or tack.
